profile

Keith Bird is a partner in the firm's Toronto office and practices exclusively intellectual property law. Keith advises clients about all aspects of IP including licensing, patent freedom to operate, infringement and validity opinions, due diligence and patented medicines regulatory advice. He has successfully advised and represented clients in complex patent prosecution and litigation matters involving such diverse technologies as: engine oil additives, mass spectrometers, television audience measuring devices, postage meters, modular housing, fire simulators, fibre optic communication systems, pharmaceuticals, inventory control systems, farm machinery, oil patch and tar sand advancements, cell phones, animation engines, OLED screens, water coolers, mobile commerce applications and telecommunications security. Keith has been involved in the conduct of patent, industrial design, trade mark and copyright litigation before the Federal Court of Canada, the Federal Court of Appeal, the Ontario Superior Court and Court of Appeal, and the Supreme Court of Canada.

Keith has assisted a variety of clients in commercializing their intellectual property in sectors such as health care, consumer products, entertainment and sports, information technology and manufacturing and is known for building valuable patent and trade mark portfolios for many companies.

Keith is well respected by his clients and colleagues for his ability to analyze and interpret complex patents. Keith's background as a research physicist specializing in thin films and magneto-resistance has resulted in a deep understanding of a broad spectrum of technologies.

Keith was qualified as an expert in Canadian patent law by the Royal Courts of England and Wales in December 2009 when he testified as an expert witness in the important patent agent

negligence case, Andrew Robert England Kerr v. Laurence Shaw & Associates Limited, [2010] Case No: HC08 C02343.
