

document preservation/destruction crisis service

overview

When clients are threatened with litigation, they must act quickly to preserve all relevant records, in order to avoid the dangerous consequences of destroying, disposing of or altering potentially relevant documents.

McMillan's Document Preservation/Destruction Crisis Service, and its proprietary eDiscovery Playbook, form part of a comprehensive risk analysis plan, which identifies imminent concerns with records management procedures that may impact the preservation of potentially relevant records.

McMillan's Document Preservation/Destruction Crisis Service also contains template preservation letters, interview sheets and questionnaires, workflow charts and stage-by-stage checklists for document identification, preservation, collection, processing and production.
